

SCROLL DOWN FOR CLOSE-UPS

Kerry Olson and the women who helped her make this Round Robin quilt really outdid themselves so of course, we had to do the same. Kerry's spunky medallion set the stage for the borders that surround it. We free-motioned around the wool applique and just had to add the computerized boots design around the outer borders.

After all the fun we had working with this applique center, we just have this to say—we are ready for more applique quilts—
"BRING IT ON! LOL."
