

SCROLL DOWN FOR CLOSE-UPS

Sue Revell found this beautiful Dresden Plate quilt in a chest and believes it was made by her great grandmother. The fabrics appear to be mostly from the 1930s. As is true of so many of these heirlooms, the quilt had some fraying at the edges, so we added borders to stabilize it and made pillow shams to match. The quilting was customized including stitch in the ditch, special quilting in the blocks and borders and more.
